Bachelor of Science in Information Technology
Major in Network and Information Security
Graduated Magna Cum Laude

Lapaz, Iloilo City
Expected July 2022

ILOILO NATIONAL HIGH SCHOOL

Technical Vocational Livelihood – Information and Communications Technology Strand
Graduated with Honors

Lapaz, Iloilo City
Expected 2018

WORK EXPERIENCE

MSS (MySchoolSuite)

Frontend Developer I (Next.js, Tailwind, AI assisted development, various MCP server configurations)

Iloilo City
Feb 2026 – Present

- Contribute to the development of the MySchoolSuite Philippines web platform, collaborating with backend engineers, QA engineers, UI/UX designers, and DevOps to build a comprehensive school management system.
- Develop responsive frontend features for a role-based access control (RBAC) CRM using Next.js, React, TypeScript, Redux, Context API, and Tailwind CSS, integrating with REST APIs.
- Build and maintain an event management module, enabling schools to schedule events and manage school activities through an intuitive administrative interface. Implement a digital permission slip system that allows parents to receive, review, and respond to school permission requests electronically.
- Translate Figma designs into responsive, production-ready user interfaces while ensuring consistency with the application's design system.
- Participate in GitHub and Bitbucket code reviews, collaborating with team members to maintain code quality, consistency, and best practices.
- Utilize AI-assisted development tools including Cursor, GitHub Copilot, Claude, and MCP servers to improve development efficiency while maintaining engineering standards.

COGITATE

Frontend Developer (React.js, Next.js, Typescript, Wordpress, TailwindCSS)

Remote Work (United States)
November 2022 – January 2026

- Developed and maintained approximately 10 client web applications using React, Next.js, TypeScript, Tailwind CSS, Shopify, and WordPress, collaborating with a cross-functional team of approximately 15 designers and developers.
- Built an AI-powered merchandise storefront that generated custom artwork and themes using AI, automatically applying generated designs to products such as apparel, mugs, and other merchandise for preview and purchase.
- Developed and maintained an e-commerce storefront for educational institutions, implementing new features, enhancing the user experience, and integrating frontend functionality with REST APIs.
- Designed and implemented an n8n automation workflow that simulated end-to-end application behavior—including AI image generation and REST API interactions—to validate critical application workflows without running the complete application.
- Built and customized Shopify storefronts, creating responsive e-commerce experiences tailored to client branding and business requirements.
- Maintained and enhanced legacy WordPress websites for multiple clients through feature updates, bug fixes, and content improvements.
- Collaborated closely with designers by translating Figma mockups into responsive, accessible, and production-ready interfaces while maintaining pixel-accurate implementations.
- Participated in GitHub and Bitbucket code reviews, contributing to code quality, maintainability, and collaborative development practices.

PROMETHEUS PRODUCTIONS OPC

Web Developer Intern (React.js, Next.js, Typescript)

Iloilo City
Feb 2021 – May 2021

- Rebuilt the company's website from React to Next.js, improving maintainability and taking advantage of Next.js routing and rendering capabilities.
- Collaborated with senior developers to implement responsive frontend features and improve overall user experience.

ADDITIONAL

Technical Skills:

- **Frontend:** React, Next.js, TypeScript, JavaScript, Tailwind CSS, Redux, Context API AI assisted development: Cursor, Copilot, Claude
- **Web Technologies:** HTML5, CSS3, REST APIs, Shopify, WordPress
- **Developer Tools:** Git, GitHub, Bitbucket, Cypress, Netlify
- **IT Support & Maintenance:** Basic hardware and network troubleshooting, Computer System Servicing

Languages: Fluent in English

Certifications & Training: Online Course in Networking (Cisco Academy), TESDA NC-II Certified in Computer System Servicing
